

Smoky Days 2027

LEIPZIG, GERMANY

29 September– 1 October 2027

Following the success of the first “Smoky Day” in spring 2026, *LSC BioSmoke* invites you to a **second edition**: a scientific workshop that explores the various processes and impacts of smoke and aerosol particles on the atmosphere and biosphere. We also welcome contributions from related fields, including fire ecology, fire modelling, vegetation recovery, and the health effects of smoke.

What to expect:

- Scientific exchange among experts from atmosphere, biosphere, fire ecology, and biomass combustion
- Great networking opportunity
- Oral & poster presentations
- Online participation possible
- No registration fees

Sign up for our mailing list to stay updated

Further information: www.leibniz-biosmoke.de/smokydays

Registration deadline: 15 August 2027

Submit your presentation title and preference
(talk/poster) to:

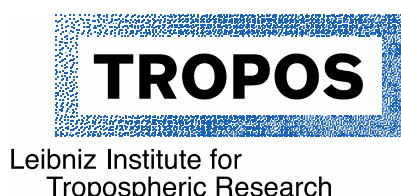

robert.wagner@tropos.de

Venue:

Leipzig Institute for Meteorology
University Leipzig
